BuzzB
CONNECT. COLLAB. BUZZ.

THE CREATOR ECONOMY IS BUZZING. BUT BRANDS & CREATORS ARE STILL FLYING BLIND.

FOR HIVES | BRANDS

Finding the right Bee is hard.

- Discovery is scattered across Instagram, agencies & DMs
- Follower count ≠ real influence
- Finding, screening & managing creators takes time
- Deals, communication & payments happen across different platforms

BuzzB

WHERE HIVES FIND THEIR BEES.

A one-stop platform that connects brands and creators for seamless collaborations from discovery to delivery and payment.

HIVE posts a BUZZ → AI finds the right BEES → BEES apply → COLLAB happens → PAYMENT secured

FOR BEES | CREATORS

Finding the right Buzz is harder.

- Brand opportunities are hidden in DMs & random platforms
- Smaller creators struggle to get discovered
- No unified professional profile for their real performance
- Applications, deadlines, content & payments are difficult to manage

DISCOVER • MATCH • COLLABORATE • GET PAID
